

Please do not even considering weakening the NJ Do Not Call List. Our family can finally have dinner in peace, my son can do his homework uninterrupted, I don't have to answer the phone in the middle of a family emergency, I can actually hear the sound of my clocks instead of constant ringing! I would never buy anything from someone who called me anyway (and when you hang up on them, most times you are harrassed in return!!!!). Please leave it as it stands.
